Harbour COLLECTION

Get swept away by the unexpected subtle beauty of this sea-inspired, natural linen collection of passementerie. Samuel and Sons' Harbour collection introduces a selection of organic cords, braids and hand-knotted fringe reminiscent of nautical regalia. From the 3/8" Cord with Tape to the Serpentine Braid and Barrel Knot Fringe, this slightly rough-hewn collection focuses on the inherent nature and beauty of linen and its translation when woven. Of particular note is the Beaded Braid in which yarn-covered beads float across the waves of an intricate lanyard gimp. The hand-knotted Barrel Knot Fringe employs a wonderful rhythm in its alternating length twisted rope hangers and use of the nautical Barrel knot. A triple-ply rope holdback featuring beads and Barrel knots, a linen frog with a historic Crown knot in its center, and a 5" key tassel accented by a bead, complete the selection. The Harbour color palette lies within quieter hues of Sand Dune, Flax and Sea Crest, as well as nostalgic maritime colors such as Sail, Navy and Lobster. The poetic vision of the Harbour collection is realized in its linen fiber, nautical knotting techniques and oceanic color spectrum.
